Contact Kitty OKeefe <kitty@digsafelyoregon.com>

Program: No formal presenter.

Kevin Hennesy – Discussed locate mark issues. OUCC is revising some policy- Vacancy on OUCC board.

Dave B. – Prof. UG – Brought up that when submitting tickets on ITIC, the work area descriptions are routinely being changed from what applicant writes and what the ticket shows (streets, address, etc.). This may be due to the way the graphic interface (polygon, route etc.) is used. Depending on what you pick, the system can either allow manual input or autofill by program.

It was recommended that people use the ITIC Demo side. (Test side, Sandbox, etc.). Jim F. confirmed that test side works well for practice and also to generate list of utilities on a site, without submitting actual 'real' ticket.

811 Tee Shirts were distributed.

Meeting Adjourned- 12:40 pm (Minutes taken by Jim Franklin)
